

Gustavo Ferreira

JAVASCRIPT DEVELOPER

COVER LETTER

DEAR SIR OR MADAM

My name is Gustavo Ferreira and I was born 16 years ago in São Paulo (Brazil), currently I live here with my parents . I am in the second year of high school and I have many skills that people twice my age have.

For example, I have great proficiency in English and HTML, Css and JavaScript in high level. I would like to start working abroad in the programming area until that I am old enough to enter college.

I intend to graduate in a good university in Europe or North America and form a family there in future. I know that many places in the world need good developers and I know that I will become a great programmer in the future and make a difference in your company.
